The prior art of record neither anticipates nor renders obvious the claimed subject matter of the instant application as a whole either taken alone or in combination, in particular, prior art of record does not teach "a first gate electrode, and a second gate electrode arranged on the side opposite to said first gate electrode with respect to the source electrode and the drain electrode, and wherein the first gate electrode and the second gate electrode are connected to a common gate wiring," as recited in claim 1.

Claims 2-10 are also allowed as being dependent of the allowed independent base claim.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
